

# STO CYBER SAFE

## 1. HOW DO I SPEND MY TIME ONLINE?

=} In whatsApp, Instagram and Facebook

## 2. WHAT ARE MY FAVORITE PLATFORMS AND WHY?

=} WhatsApp, because WhatsApp uses end-to-end encryptions to keep data safe while it is transferred from sender to recipient. It is a free cros platform messaging service so.... I feel safe . ✨

## 3. HOW DO I ENSURE THAT I'M SAFE IN MY FAVOURITE PLATFORM?

WhatsApp encrypts every message sent on its platform which means the only people who can decode it are the sender and the receiver. WhatsApp can't access anything you share and not could a hacker if they were to intercept a message
